

A day that brings clarity

A workshop day exclusively for your leadership team: what AI and automation can already do today, where deployment genuinely makes sense in your organisation – and where caution is warranted. No vendor pitch, no buzzwords, but an honest, tailored assessment of where you stand.

WHAT YOU TAKE AWAY

- **Overview:** what AI and automation can really do today – beyond the headlines
- **Potential analysis:** where automation genuinely saves time and cost in your organisation
- **Pitfalls:** data protection, liability, quality loss and blind trust in results
- **Roadmap:** concrete first steps, prioritised by effort and impact

FORMAT

Full-day workshop, on site at your company

AUDIENCE

Executives & decision-makers

TAILORING

Individually to your organisation

INVESTMENT

2,400 €

WHY OLENOR

We consider AI and automation not in isolation, but in interplay with strategy, risk management and controlling – so that new systems keep your organisation decision-capable and resilient over the long term.
